Room number information to be provided to vendor.

● Be sure to read and understand all instruction sheets completely before beginning assembly or installation.  
● All assembly and installation work must be performed by qualified personnel, in accordance with all applicable national and local building and electrical codes.  
● Be aware that the weight of some fixtures may exceed the strength rating of the 4" electrical junction box or other such hardware at your site. In all cases, it is the responsibility of the contractor to properly secure the fixture to the structure, and to provide adequate support for the fixture.  
■ ● Due to constant production improvements, ILEX reserves the right to change details of the design, material and finish in any way that will not significantly alter installed appearance or reduce function or performance.
